

Ejemplo de CV para IEEE SM Postulation - Practitioner

* *Este no es un "formato oficial" sino sólo un ejemplo de contenidos (a partir de un caso real) del CV de un "académico" (docente e investigador como tareas principales).*

* *Al comienzo se puede incluir un breve resumen de la trayectoria (áreas de trabajo, habilidades destacadas, ...) y luego detallar los diversos ítems.*

* *Si hay ítems extensos (p.ej. lista de publicaciones) se puede insertar un resumen, con indicación del total y la evolución temporal (se evidencian así los años de experiencia profesional con resultados significativos); y y presentar la lista detallada de todos los ítems al final como Anexo.*

25 papers publicados en revistas internacionales con referato (IEEE y otros), a partir de 2005 (1), 2006 (2), 2007 (2),, 2018 (3), 2019 (2).

* *Se puede agregar información sobre Sociedades profesionales, en particular membresía y voluntariado en IEEE, charlas y cursos dictados sobre su especialidad y, especialmente, si tuvo participación significativa en actividades relevantes, innovadoras, como ser la organización de un Congreso.*

* *Para 'conocimientos adquiridos' (cursos tomados, asistencia a actividades técnicas...) basta con los títulos universitarios. Lo que importa es lo que se logró hacer con esos conocimientos.*

Nombre y Apellido: Bart Simpson
