

## Ejemplo de CV para IEEE SM Postulation - Practitioner

\* **Este no es un "formato oficial" sino sólo un ejemplo de contenidos** (a partir de un caso real) del CV de un "*practitioner*", quien también tiene algunas presentaciones en reuniones técnicas.

\* Al comienzo de **Professional Experience** se puede agregar un **breve resumen de la trayectoria** (áreas de trabajo, habilidades destacadas, ... ).

\* Se pueden citar los sitios web de las empresas mencionadas (aunque es poco probable que los revisores los visiten, pero pueden ser útiles para los referentes).

\* Se puede agregar información sobre **Sociedades profesionales**, en particular membresía y voluntariado en IEEE, charlas y cursos dictados sobre su especialidad y, especialmente, si tuvo participación significativa en actividades relevantes, innovadoras, como ser la organización de un Congreso.

\* Para 'conocimientos adquiridos' (cursos tomados, asistencia a actividades técnicas...) basta con los títulos universitarios. Lo que importa es lo que se logró hacer con esos conocimientos.

\* La diagramación es la del documento original, pero -obviamente- el candidato puede modificarla a voluntad.
