STEP IN ARGENTINA SECTION

Goals

The goal of this activity was to integrate the maximum number of students who are going to graduate, recent graduate students and graduate students member of IEEE to planned the activities to will be organized during 2010.

We wish take this opportunity to give an incentive to all students to work in GOLD Affinity Group during 2010, organizing a lot of activities this year.

Attended

- Authorities (total 9)
 - Ricardo Taborda - IEEE Argentina Section Vice Chair.
 - Pablo Recabarren - IEEE Cordoba Subsection Chair.
 - Susana Drudi - IEEE Cordoba Subsection Secretary.
 - Orlando Micolini - IEEE Cordoba Subsection Treasurer.
 - Miguel Solinas - IEEE Cordoba Subsection past Chair.
 - Carlos Bartó - IEEE Cordoba Subsection past Chair.
 - Carmen Rodriguez – Cordoba Engineering Specialists College Vice President
 - Luis Calderon – Cordoba Engineering Specialists College President
 - Ernesto Ambroggio – Dpto. Electronic Director – UNC.

- GOLD, GSM and Students (total 19)
 - GOLD and GSM members.
 - Students Members of 4 (four) Students Branch:
 - Blas Pascal University
 - Cordoba National University
 - National Technological University – Cordoba Regional
 - Aeronautical University Institute
 - Students from the last years of the career.

Place

CIEC - Córdoba – Argentina

Date

Thursday 17, December – 2009

Activity Description (Dinner format)

The STEP program has been developed with great success in many Regions and for the first time has been carried out in Argentina. The workshop was developed last Thursday 17 of December, in Cordoba's city, with participation of about 20 members, including student members in recent years or graduates students members for whom this program was development. Overall Student Branches were represented by Blas Pascal University, National Technological University – Córdoba Regional, Aeronautical University Institute and Cordoba National University, all residents in Cordoba's city.

Participants also included were Ricardo Taborda, Vice President of Argentina Section, Pablo Recabarren, Susana Drudi y Orlando Micolini, President, Secretary and Treasurer of Cordoba Subsection, respectively, and Miguel Solinas and Carlos Bartó, past presidents of Cordoba Subsection, as well as academics and professionals industry. Authorities of Cordoba Engineering Specialists College (CIEC) were invited to join the STEP, they collaborated once again offering its facilities to implement the program.

Between the activities carried out, there was three lectures. Pablo Recabarren was responsible for the formal inauguration of the STEP, which thanked all attendees for their participation on the event, performed a small balance of Cordoba's Subsection and its relationship to GOLD members, inviting all attendees to join to participate in the activities to will conducted in 2010.

Then Augusto Herrera, GOLD Chair 2010 for Argentina Section, explained about the STEP program, theirs main goals, and encouraging all student members and graduates students members to continue actively involved in the development of IEEE professional activities after graduation, maintaining active relationship with the GOLD's officers, Section and Branches in which they were volunteers. He further explained that the idea is to prepare an Action Plan involving recent graduates from all Branches of Argentina Section and raised the goal of bringing to Argentina to be a part of Sections with more GOLD activities for the next year (2010).

After that there was a small break, and after the break giving way the last talk by Ricardo Taborda, one of the members with more years in IEEE, who told at all attended about some of his experiences into Sections and Subsections, inviting at all attendees to continue adding to the IEEE GOLD activities that develop during the course of 2010.

When presentations finished were provided space for a kindness dinner to all attendees, followed by awards and recognition to all members who worked during the course of 2009 in Cordoba Subsection and GOLD activities.

Conclusions and Objectives

- Organize a minimum of 10 activities during 2010.
 - 5 (five) Technical activities
 - 5 (five) Non Technical activities

- Working together:
 - with Students Branchs
 - with Subsection
 - with Section

- Be present at the RR-GOLD (Regional Meeting - GOLD) and the RNR (Students Branch National Meeting).

- Getting closer to businesses and hold events together.

- Repeat STEP activity in middle year.
 - Share experiences with GOLD Affinity Groups from other Sections
