## 5. Communications with membership and others

The Section maintains regular communication with members, volunteers, and others through many channels.

- Website <http://www.ieee.org.ar> and its RSS feed, updated with 54 'news' items in 2016.
- Website for IEEE ARGENCON <http://www.argencon.org.ar> hosted in IEEE and designed with IEEE WordPress.
- We own three Internet domains: 'ieee.org.ar', 'ieee.com.ar', and 'argencon.org.ar'. The '.com' domain was requested to avoid the use of 'ieee' by a third party, and is linked to the '.org' one.
- Electronic Newsletter (IEEE AR Noticiero), with 14 issues sent to members and others in 2016, and archived on the website (about 6,000 subscribers).
- vTools Meetings and 17 E-Notices.
- Social Media: facebook (5.850) Twitter (4.200), LinkedIn (1.700), Meetup (170).
- IEEE Collabratec Argentina community (1.650).
- Own own IEEE WebEx account ( WX9Argentina@ieee.org ), granted by IEEE MGA.
- G40 file space, common repository for Section documents.
- e-mail list [sec.officers@ieee.org.ar](mailto:sec.officers@ieee.org.ar) linking officers and volunteers.
- Telephone (+54 11 4867-7616), staffed and answering machine.
- WhatsApp groups, particularly active among students.

## 7. Student Branches

We have 34 Student Branches (some with Societies Student Chapters) established throughout the country. The list is available at [http://www.ieee.org.ar/ieee\\_argentina.asp](http://www.ieee.org.ar/ieee_argentina.asp) (Integrantes; Ramas Estudiantiles).

About 1/3 of these Branches are active, 1/3 shows some activity or at least someone is working to revive them and 1/3 are inactive since time ago.

The SAC team permanently strives to recover all of them, with help from the Section and students of active Branches, through actions like:

- Encouraging students to attend the nationwide annual Argentinean Student Branches Meeting (RNR), already with over 20 consecutive editions, hosted each year by a different Branch somewhere in the country.
- RNRs are partially financed by the Section
- Branches Virtual Meetings (RVR) are held through IEEE WebEx several times a year.
- 'Road Shows' visiting existing and prospective Branches, and other visits taking advantage of personal or bussiness trips of volunteers and officers. This was powerful to foster the establishment of new branches and the revival of older ones.
- The Section is responsive to Branches needs in all matters, helping them to organize activities through our Local Speakers Program (PDL) and, as possible, with financial support.
- The Section awards each Branch complying with the required MGA reporting a similar 'rebate' as MGA does.
- Efforts were fruitful to steadily establish new Branches in the latest years.
